Hi, I'm creating a new product in my Amazon seller central. I have submitted all the correct document and enter all the information that they need. It is a pesticide product, but they keep removing my listing and asking to submit the information I have already done. I kept getting the same message they cant reinstate and ask me to do the things that I have already done. Can you help?

This message relates to:

I will professionally resolve listing issues, and account errors

We seem to be making good progress at this stage and looking forward to the next stage. Dastan took the time to call me and guide me through the first part of the set up procedure. Still work in progress but happy at this stage.
